Color & Woodgrain Vinyl Fence

Grand Illusions Advantage products are designed to complement each other for a high-end, uniform look in your modern outdoor living spaces.

Grand Illusions Advantage products solve the color challenges many fence products face. The unique substrate formulation has been tried and tested in a variety of PVC products all over the world. The proprietary, variegated, ASA blended cap formulation is resistant to excessive heat build-up, aesthetically pleasing, and impervious to insects and salt spray. The inherent fade resistant properties make it the premium solution for modern outdoor living designs.

Available in six attractive woodgrains and black, there are a multitude of fence color combinations for you to select from. Especially when you include the standard solid colors of White, Beige, Gray and Clay.

Features:

- Comfort and beauty without the headaches
- ASA cap is uniquely formulated for darker colors
- Variegated extrusion simulates a non-repeating woodgrain pattern
- DualEdge recycled substrate reinforces commitment to environmental responsibility
- 20-year limited warranty

dual edge[®]
ECO LAYER EXTRUSION TECHNOLOGY

A focused standard for timeless privacy

DualEdge Eco Layer Extrusion Technology uses in-house mixed color, pre-consumer, reclaimed PVC for agricultural post and rail as well as extruded packaging containers and liners. DualEdge Eco Layer profiles are the solution to reclaimed material in

the marketplace. Select shapes are available to our fabricator base for the manufacture of PVC fence and rail. The dual layers consist of a high-performance, weatherable PVC outer shell, along with in-house captured PVC substrate.
